TRAN NGOCTIEN

Software developer

0935572707 | ngoctien20022005@gmail.com | https://github.com/TienTrn05 | Hoa Khanh, Da Nang

ABOUT ME

Information Technology student with a strong interest in Software Development. Experienced in frontend and backend development, APIs, and databases. Eager to learn, adapt, and build reliable, user-friendly software through real-world projects.

EDUCATION & CERTIFICATION

Danang University of Science and Technology
Major: Information Technology
Current GPA: 3.82

TOEIC Certificate (Issued by IIG Vietnam) **9/2026**
Total points: 645/990 points

ACTIVITIES

FAU TEAM (04/2026 - 08/2026)
Flutter internship program

S-Group / Think Different - Make Different **10/2025**
Member

SKILLS

Languages:
HTML, CSS, JavaScript, Dart, C/C++, C#, Java
Frameworks & Libraries:
React.js, Express.js, Tailwind CSS
Databases:
MySQL, PostgreSQL, SQL sever
APIs & Tools:
RESTful API, Postman, Git, GitHub, Trello

WORK EXPERIENCE

Expense Management - Project basic learning

https://github.com/TienTrn05/ProjectFinalMobile-

08/2025 – 12/2025
Member | Flutter, Supabase, Gemini API

- Developed a personal finance application for tracking income, expenses, budgets, and transaction categories.
- Integrated Supabase Authentication for user login and account management.
- Implemented database operations and real-time data synchronization using Supabase.
- Built interactive charts to visualize spending patterns, financial statistics, and budget allocation.
- Integrated Gemini API to analyze spending behavior and generate personalized financial recommendations.
- Designed user interfaces with Figma and collaborated with team members using Trello.

Teleprompter - FAU TEAM

06/2026 – 08/2026
Mobile Developer | Flutter, Dart, BLoC/Cubit, FFmpeg, REST API

- Developed a teleprompter app with script management, auto-scroll, and customizable settings.
- Integrated camera, speech-to-text, and video editing features using FFmpeg.
- Integrated AI for script generation, summarization, and rewriting.
- Managed application state using BLoC/Cubit and device services.

Portfolio - Presonal Project

https://github.com/TienTrn05/Portfolio

07/2026 – 08/2026
React 19, JavaScript, Vite, Tailwind CSS 4

- Developed a fully responsive personal portfolio using React 19, Vite, and Tailwind CSS 4.
- Organized the application into reusable components with separated project data, configurations, and interaction logic.
- Implemented scroll-based navigation, reading progress indicators, and expandable project sections.
- Built smooth scroll animations using IntersectionObserver and optimized updates with requestAnimationFrame.
- Developed dark/light themes and customizable motion preferences with localStorage persistence and reduced-motion support.
- Integrated a contact form using FormSubmit with input validation, submission states, and user feedback.
